

# CREATION FEST

## Eco Project

*The earth is a beautiful place that needs to be protected and loved. As lovers of God, we believe it our mission to love everything that God has entrusted to us, which not only includes each other, but also our beautiful earth.*

*This year at Creation Fest we want to make a positive impact on our earth. We will do this by:*

- Encourage reusable bag use with an aim to be plastic bag free by 2018
- Supplying free water refill stations to be used with our Creation Fest water bottles and providing training for our volunteers around water bottle waste and the impact on our world.
- Being a zero waste to landfill site in partnership with H & A Recycling

*We believe this to be important because plastic pollution is an issue that connects the environment with all parts of society, and is something that we can take action on at every level.*

- It takes 500-1,000 years for plastic to degrade
- Plastic gradually break down into smaller pieces and end up in our oceans, then our food chain
- Up to 16 million plastic bottles are not being recycled every day in the UK alone, these will also end up in our oceans
- On average there are 46,000 pieces of plastic floating in every square mile of ocean.

*Statistics from [ecowatch.org](http://ecowatch.org) and [the-guardian.com](http://the-guardian.com)*

*We can all do our part to leave this planet just as beautiful as when we arrived.*

*"The earth is the LORD'S, and all it contains, The world, and those who dwell in it. For He has founded it upon the seas And established it upon the rivers."*

*Psalm 24:1-2*
